

Smarter Balanced Assessment Readiness

“Preparing Your School to Administer the Tests and Integrate Results into Practice”

Peter Drescher

Education Technology Coordinator

Frank Gerdeman

Assistant Director, Integrated Support for Learning, High School and Adult Division

Michael Hock

Director of Educational Assessment

Plus: Panelists from Regional Elementary, Middle and High Schools

Smarter Balanced Field Test Participants, Spring 2014

October/November 2014 – Stratton, Montpelier, Colchester & Lyndonville

Secretary Holcombe discusses assessment with State Board member Bill Mathis

<http://education.vermont.gov/sbac/sm-workshops>

How will SBAC be different from NECAP?

	Smarter Balanced	NECAP
Content Standards	Common Core State Standards	Tri-State Grade Expectations
Achievement Descriptors	On Track to be Career and College Ready	Prepared for Next Grade Level Learning
Test Format	Web-Based	Pencil and Paper
Item Delivery	Computer Adaptive	Fixed Form/Common Item Set
Assessment Types	Summative, Interim and Formative	Summative
Item Types	Multiple Choice, Short Answer, Tech Enhanced, Performance Task	Multiple Choice, Short Answer, Constructed response
Testing Window	El. & Middle 12 Weeks/Spring; HS 7 Weeks/ Spring	3 Weeks/ Fall
Results Turnaround	Some Scores Available Immediately; Remainder in About 1 Month	About 3 Months

How will SBAC be different from NECAP?

Results Turnaround	Some Scores Available Immediately; Remainder in About 1 Month	Some Scores Available Immediately; Remainder in About 3 Months

...But really it's
all about the
TECHNOLGY!

What's so “balanced” about Smarter Balanced?

What's the difference between summative, interim and formative assessments?

- **Summative Assessments** are administered at the end of a specific unit or period of learning, generally near the end of a school year. They are designed to “sum up” how much the student has learned over that period of time, and to determine if the student’s achievement is sufficient to meet standards or pre-defined learning expectations.
- **Interim Assessments** are similar to summative assessments in terms of content but are designed to be administered more frequently in order to determine if students are on track to meet end of grade/unit standards, or to provide additional support or mid-course correction if needed.
- **Formative Assessments** are embedded in the day to day, minute to minute interactions between teachers and students. They are used to gauge the pacing of instruction and to determine if students are ready to move on to new material or if they need additional instruction. Formative assessments are often based on strategic questioning strategies, probes, short quizzes or performance events.

What's so special about SBAC?

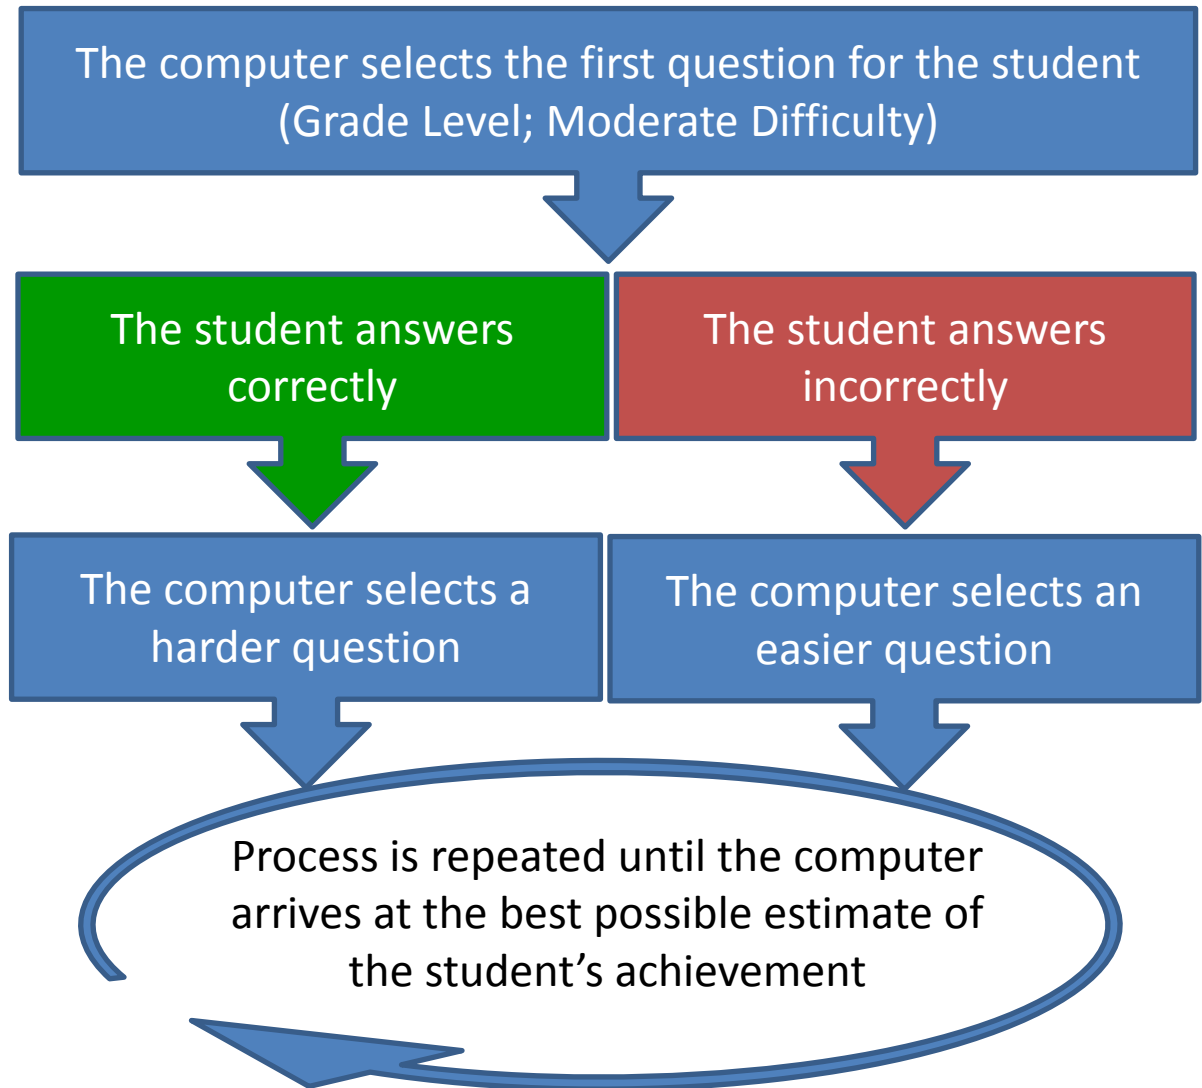

Lots of things! Here are a few that stand out:

- Computer Adaptive Assessment
- Technology Enhanced Test Items and Test Delivery Engine
- Performance Assessment based on classroom activity
- Embedded Accessibility Features for Special Populations
- So far, students seem to like it

What is computer adaptive testing?

The Computer
Adaptive
Assessment
Algorithm Vastly
Simplified

What's so special about Computer Adaptive Testing (aka CAT)?

Increased precision

- Provides accurate measurements of student growth over time

Tailored for Each Student

- Item difficulty based on student responses

Increased Security

- Larger item banks mean that not all students receive the same questions

Shorter Test Length

- Fewer questions compared to fixed form tests

Faster Results

- Turnaround time is significantly reduced

Mature Technology

- GMAT, GRE, COMPASS (ACT), Measures of Academic Progress (MAP)

Does CAT have any special advantages for special students?

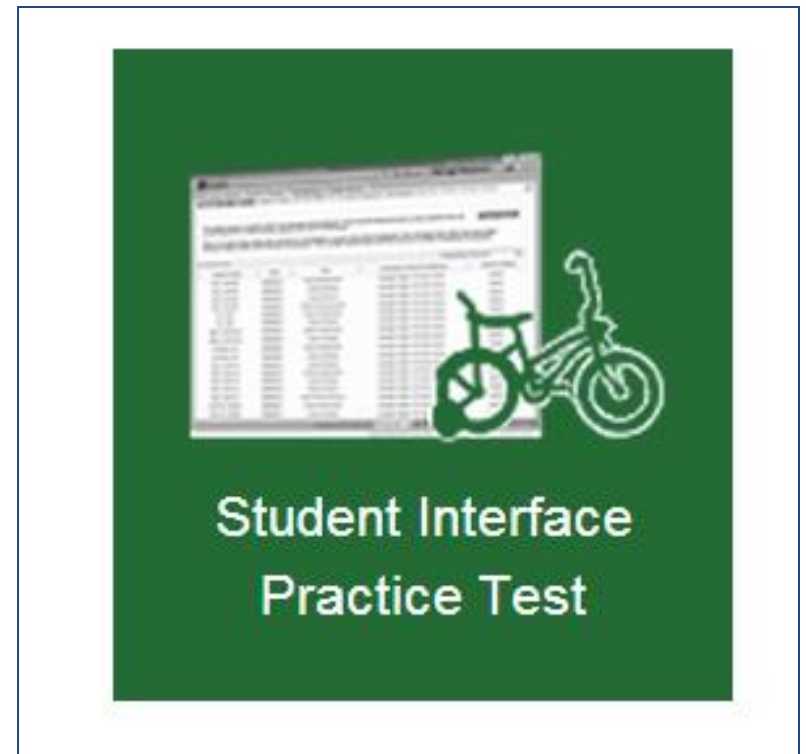

- **PRECISE** – Unlike fixed form tests, CAT is precise at all ability levels, not just at the proficient cut score
- **EFFICIENT** – Takes less items than fixed form tests to reach a valid and reliable estimate of ability, reducing testing time by as much as 50%; results are available almost immediately.
- **RESPONSIVE & HUMANE** – CAT algorithm produces an individual item set for each student, adapting after each student response; item set comprised of items the student CAN and CAN'T answer in equal proportion
- **Secure and Adaptable** – CAT eliminates most test security concerns of fixed form tests allowing for longer test windows and small group or individualized administrations

Technology Enhanced Test Items and Test Delivery Engine

Use this link to access the SBAC Portal:

<http://sbac.portal.airast.org/practice-test/>

Please note: Several of the embedded accessibility tools are available only if the secure browser is in use. It can be downloaded from the SBAC portal.

What role will performance tasks play?

Performance Tasks

- Extended projects demonstrate real-world writing and analytical skills
- May include online research, group projects, presentations
- Require 1-2 class periods to complete
- Included in both interim and summative assessments
- Applicable in all grades being assessed

“The use of performance measures has been found to increase the intellectual challenge in classrooms and to support higher-quality teaching.”

- Linda Darling-Hammond
and Frank Adamson,
Stanford University

Read aloud for reading: Okay or Not Okay?

Decision Points: Solution must...

- Align with Standards
- Aim for Career College Ready
- Avoid Unintended Consequences

Read aloud for reading: Okay if...

SBAC Policy:

- Read aloud for reading not permitted in Grades 3-5
- Permitted in Grades 6-8 and 11
- IEP/504 Plan: Must demonstrate persistent reading disability

Planning for Students with Special Assessment Needs: The Individual Student Assessment Accessibility Profile (ISAAP)

ISAAP is a tool designed to help school teams match student accessibility needs with the tools embedded in the SBAC Test Interface. ISAAP, as well as other tools and documents for students with special assessment needs, can be accessed using this link:

<http://www.smarterbalanced.org/parents-students/support-for-under-represented-students/>

**Preparation and development
of classrooms engaged
in digital learning**

LEADS TO....

**Classrooms ready to engage
in online assessment OR
SBAC Ready!**

Device readiness:

YES: Chromebooks AND iPads/tablets are SBAC-compatible!

Chromebook addition to state contracts--post VTfest

Keyboards?--allow for choice
Pointing devices

Input devices: 2015-16 no stylus, microphone

There are things to prepare:

- Wireless access? Is it the best it can be?
- Are you purchasing new devices that meet SBAC requirements?
- Are you having teachers and students spend time in the environment?
- Are you on track to provide the best environment for student success?

The “skills” students need:

- digital citizenship
 - digital communication/collaboration
 - reasoning from evidence
 - evaluating web resources-media literacy
 - cyber-safety and awareness
 - troubleshooting simple tech issues
 - writing, publishing in an online world
 - building efficient processes with technology
- depth of thinking--researching
- creating tools, processes, innovations with technology
- engaging other learners

Prepare your staff...

Practice Tests and Training tests – What's the Difference?

- **Practice Tests** allow teachers, students, parents and other interested parties to experience a full grade-level and gain insight into how Smarter Balanced will assess students' mastery of the standards. Includes a variety of question types and difficulty (@30 items each in ELA and math) as well as ELA and math performance tasks at each grade level (3-8 and 11). Includes all embedded universal tools, designated supports and accommodations
- **Training Tests** are designed to provide students and teachers with opportunities to quickly familiarize themselves with the software and navigational tools they will use on the 2015 assessments. Training tests are organized by grade bands (3-5, 6-8 and high school) and contains 14-15 questions selected to provide an opportunity to practice a range of question types. Includes all embedded universal tools, designated supports and accommodations but does not include performance tasks.

SBAC Readiness: What's On the Way....

■ Training Modules

- Embedded Universal Tools and Online Features
- Performance Task Overview
- Student Interface Module

■ Digital Library

- Resources to support formative assessment practices
- Collaboration features
- Virtual Tour available via AOE Website

■ Interim Assessments

- Can be used throughout the year
- Grades 3-6 and high school are supported – high school assessments consistent with grade 11 summative design and may be administered in grades 9-12

What are formative assessment tools and professional resources?

Digital Professional Development Library

- Research-based, **on-demand tools and resources for teachers**
- Aligned to **Common Core**, focused on increasing student learning and enabling **differentiation of instruction**
- **Professional development** materials include model units of instruction and publicly released assessment items, formative strategies
- Developed by **teams of educators** from the member states

“ Few initiatives are backed by evidence that they raise achievement. Formative assessment is one of the few approaches proven to make a difference. ”

- **Stephanie Hirsh, Learning Forward**

What is an interim assessment?

Interim Assessment (Computer Adaptive)

- Two options: Interim Comprehensive and Interim Assessment Blocks
- Interim is not “secure”, meaning there are no restriction on how many times you use it, or who can view the items (keeping in mind that individual student results may not be shared without parent permission)
- Items come out of the same pool as the summative assessment. All are of the same consistent high quality.
- Includes all accessibility features.
- Most questions are “machine scored.” Teachers score constructed response using rubrics and exemplars that are provided by SBAC

Interim Assessment Types and Availability

Implementation Schedule

- Interim Comprehensive Assessment – Assess the same range of standards and provides scores on the same scale as the Summative Assessment
 - Fixed Form – December 2014
 - Adaptive Form – SY 2015-16
- Interim Assessment Blocks – Focus on smaller sets of related concepts and provide more detailed information for instructional purposes
 - Fixed Form – January 2015
 - Adaptive Form – SY 2016-17

What do school boards need to know?

- **COST** – All the direct costs for development, administration, scoring and reporting the Smarter Balanced Assessments will be covered by the State of Vermont
- **SCHOOL/DISTRICT RESPONSIBILITIES** – (1) computers, (2) access to the internet, (3) headphones or earbuds, (4) tech support for set-up, (5) staff for test administration, (6) released time for training test administrators
- **TECHNOLOGICAL DEMANDS** - SBAC will place mild to moderate demands on the technology infrastructure of typical US schools...

Geoff Fletcher, SETDA: *“If a school can’t handle these tests then the school has much bigger problems because their students will not be able to access all the excellent digital learning tools that are being introduced every day.”*
